AUTOGLIDE ELECTRIC CURTAIN TRACK SYSTEM

 **SilentGliss**

A simple touch of luxury

Wherever you are, whatever you are doing, you can rely on our made to measure electric curtain track system SG 5100 Autoglide.

This electric track allows you to open and close your curtains by switch, remote control or by a timer unit, particularly useful when you are away from home.

WAVE

As well as classic curtain heading systems such as pinch pleat, SG 5100 Autoglide is also compatible with our contemporary Wave curtain heading system which allows the curtain to hang in a continuous wave. Smooth, simple and elegant.

TOUCH & GO

Intuitive and easy operation – by pulling the fabric, the curtains open and close. Additionally, should the power fail, the integrated manual override allows you to move the curtains by hand.

TECHNICAL OPTIONS

SG 5100 Autoglide is available in four system options, all with a maximum track width of 5m carrying curtains up to 25kg. It can be bent for bay and curved windows and installation is easy with a 5m power cable and a 3-pin plug – it is simply ‘plug and play’!

SG 5100B AUTOGLIDE – WALL SWITCH

This base system offers operation via a single channel wall switch. Simple operation at the touch of a button.

SG 5100R AUTOGLIDE – REMOTE CONTROL

In addition to the wall switch, the SG 5100R is supplied with a remote control handset.

SG 5100T AUTOGLIDE – TIMER UNIT

This option is supplied with the wall switch and a timer unit which allows pre-programmed opening and closing times, combining a touch of luxury with an excellent deterrent to intruders.

SG 5100TC AUTOGLIDE – TOTAL CONTROL

The total control option includes a wall switch in combination with the remote control and the timer – giving you ultimate choice of control methods over your system.

The Architects of Silence

Silent Gliss is the leading global supplier of premium interior window treatment systems.

With cutting edge technology and a relentless commitment to precision, we develop and manufacture the world's quietest, smoothest-gliding curtains and blinds.

Driven by our customers' needs, Silent Gliss provides bespoke curtain and blind systems complemented by expert technical advice, installation and support services. Silent Gliss stands for innovative solutions, exceptional design and outstanding quality. Swiss engineered since 1952.
