

Metropole System Silent Gliss 6130M with Vega

Silent Gliss Metropole Decorative Curtain Poles

Timeless and Elegant

Appearance of a pole

Silent Gliss Metropole appears to be like any other high quality curtain pole. It is available in up to 13 different colours in 4 different sizes. It can be decorated from a wide range of traditional and contemporary finials, midials and holdbacks.

Functions as a track

However, Metropole has the added advantage of functioning like a curtain track;

- Gliders run smoothly in siliconised aluminium channels, unhindered by brackets or rings.
- It can be hand, cord or electrically operated.
- It can be bent to any bay window or curved application.

Metropole is compatible with the Wave Curtain Heading System (excluding the 23mm pole).

Quality and warranty

Whether sophisticated electric curtain systems or discreet tracks, the combination of high end materials and precise manufacturing make it possible for Silent Gliss to provide a 5 year warranty.

Made-to-measure

All our systems are made-to-measure in relation to window dimensions and customer needs.

Systems

Metropole 23mm

Silent Gliss 1003 (hand)

This 23mm diameter pole is elegant and subtle. It is suitable for light to medium weight curtains and available in 6 finishes.

Please note that System 1003 is the only Metropole system not suitable for Wave.

Metropole 30mm

Silent Gliss 6120 (cord)

Silent Gliss 6130 (hand)

Available in all 13 finishes, this versatile pole is offered with the widest range of decorative elements.

Metropole 50mm

Silent Gliss 6140 (hand)

Silent Gliss 6150 (motorised)

Silent Gliss 6160 (cord)

A large diameter hand, cord and electrically operated pole system for a more substantial appearance.

Strata

You choose – the ultimate in customisation! A modern and striking design that can be coordinated to the look of any room.

Step 1: Choose 30mm or 50mm pole

Step 2: Choose hand, cord or motorised operation. The motorised option is only available on the 50mm pole.

Step 3: Choose the pole and finial finish. Refer to the relevant system pages for colour options. The metal elements of the finial will be matched to the pole colour.

Step 4: Choose your disc colour or design.

Clear Disc

Ribbed Disc

Green Disc

Black Disc

Crystal

Sharp, eye-catching crystal glass finials with a central tint of colour. All crystal finials are available with a base plate colour matched to the pole (excluding Oak).

Suitable for 23mm, 30mm and 50mm poles. Hand operation only.

Accessories

Brackets

A full range of brackets are available to accommodate any installation.

Standard brackets

Come with covers and are available in all colours.

Adjustable brackets

Suit more complex and bent applications.

Pillar brackets

A decorative alternative for 30mm poles and are available in all colours.

Blok brackets

A modern alternative for the 36mm Metroflat system.

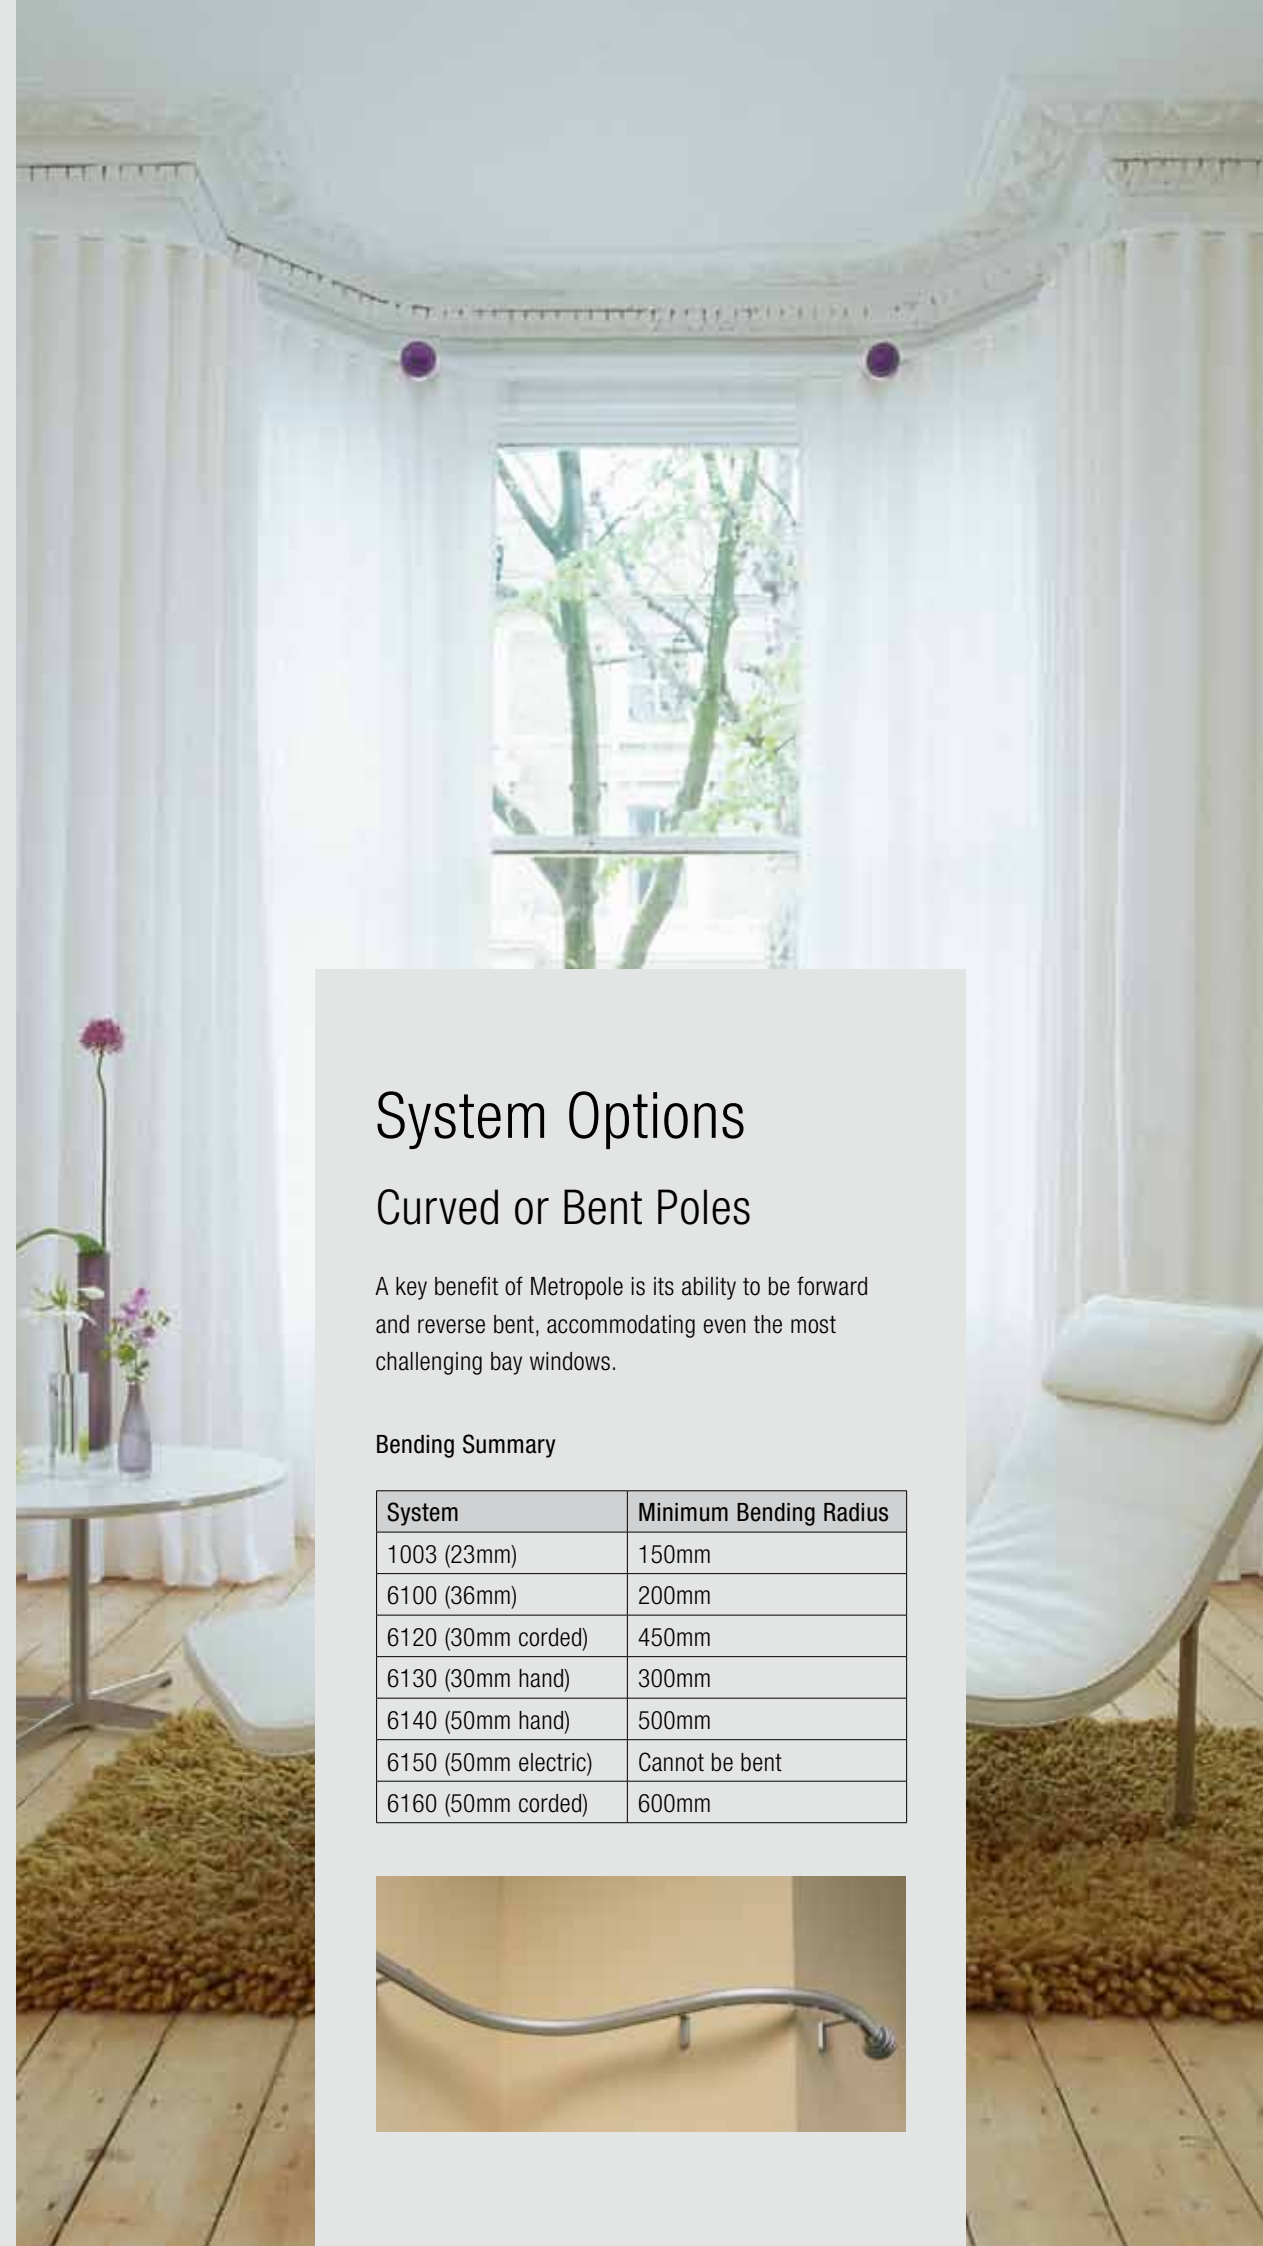

Top Fix brackets

Poles can be fixed directly to ceilings. Finials and midials cannot be used with this option.

Child Safety

The Silent Gliss cord retainer is available for all chain / cord looped blinds and tracks. The cord retainer holds looped cords or chains taut to reduce the risk of an inquisitive child becoming entangled.

System Options

Curved or Bent Poles

A key benefit of Metropole is its ability to be forward and reverse bent, accommodating even the most challenging bay windows.

Bending Summary

System	Minimum Bending Radius
1003 (23mm)	150mm
6100 (36mm)	200mm
6120 (30mm corded)	450mm
6130 (30mm hand)	300mm
6140 (50mm hand)	500mm
6150 (50mm electric)	Cannot be bent
6160 (50mm corded)	600mm

Motorisation Options

The 6150 system cleverly fuses the elegance of metropole with the functionality of Silent Gliss electric tracks.

These systems can be operated via a multitude of control options including wall switch, timer and remote control.

Motor Colour Options

System	6150M Profile Colour	Motor Colour
5090	All colours	White
5200, 5400	Silver	White
	Taupe	
	White	
	Black	Black
	Steel Grey	
Antique Bronze		

Silent Gliss Fabric Collection

Whilst many fabrics are suitable for Wave, only when using Silent Gliss approved Wave fabrics can you be assured the perfect and even wave effect. By selecting one of our wider fabrics and limiting the number of joins, the highest quality curtain is achieved.

Fabrics supplied by Silent Gliss are mainly Oeko-Tex certified and all are flame retardant. The well proven Colorama is offered in two transparencies, in 3m width and 40 colours – perfect for Wave curtains.

For ultimate reassurance, Silent Gliss offer a tailor made-to-measure curtain service. Our team of experienced curtain makers work with proven equipment and fabrics to ultimate effect.

Wave and Wave XL

The Reinvention of the Classic Curtain

Only a curtain from Silent Gliss can make waves whilst at the same time radiating tranquillity and harmony. It could be regarded as a design feature, the most beautiful contemporary curtain in the world.

Using a unique glider cord contained within the track and some specifically designed finishing components, Silent Gliss offer two systems: The standard Wave and as well as the extraordinary Wave XL for impressive big size applications.
