A Decorative Curtain Pole ... That Functions Like a Track!

Metropole is actually a curtain track and does not need curtains rings, the curtains hang directly on nylon gliders contained in a channel inside the pole.

However, unlike traditional curtain poles, the brackets attach to the top of the pole allowing the curtain to move smoothly throughout the complete length of the pole – no need for passing brackets, making it perfect for wide windows and large expanses of glass.

Simple but Stylish

For a minimalist look, or for restricted spaces, Metropole can be selected with a Flush, Stud or Design Endcap.

Flush Endcap

Stud Endcap

Design Endcap, 30mm pole only

Bay Windows

Metropole can easily be bent to fit perfectly to bay windows or other curved applications.

30mm | Slate Grey | Ball End

Hand, Cord or Electric Operation

Metropole can be hand, cord or electrically operated. Whichever method is chosen, there is the same smooth and unhindered curtain movement.

All our poles, regardless of size, shape or operation, keep the same sleek design. The cording endset blends into the pole profile giving a seamless finish.

Hand operated profile

Cord operated profile

Child safety – a cord retainer is supplied with all cord operated tracks.

36mm Metroflat | Chrome | Fused Barrel Walnut

Electric Operation

The easiest operation method! Metropole is designed so that the motor is hidden discreetly behind the curtain.

50mm | Slate Grey | Crystal Square

36mm Metroflat – the Contemporary Profile

Metroflat is a flat curtain pole offering a contemporary alternative to traditional round poles. With or without finials, available in 8 popular colours, it's perfect for modern interior design schemes.

Attention to Detail

Silent Gliss Metropole considers all the detailed elements of the curtain pole system. Brackets are colour matched to the pole.

50mm Metropole

Larger windows or high ceilings often lend themselves to larger diameter poles. Metropole is available in a 50mm diameter pole with a wide range of finials and can be bent for bay windows.

Metropole with Wave – a Perfect Partnership

Metropole can be supplied with Silent Gliss Wave Curtain Heading System. This contemporary alternative to traditional pinch pleat and goblet style headings has revolutionised the perception of curtains in modern interiors.

For more information on Wave please refer to the Silent Gliss Wave Brochure.

50mm | Silver | Strata Clear

Motorisation Options

The Silent Gliss 6150 system cleverly fuses the elegance of Metropole with the functionality of Silent Gliss electric tracks.

These systems can be operated via a multitude of control options including wall switch, timer and remote control.

Silent Gliss Fabric Collection

Whilst many fabrics are suitable for Wave, only when using Silent Gliss approved Wave fabrics can you be assured the perfect and even wave affect. By selecting one of our wider fabrics and limiting the number of joins, the highest quality curtain is achieved.

All fabrics for Wave are Oeko-Tex certified and fire retardant. Silent Gliss provides solar, heat and acoustic coefficients to help select fabrics which preferably manage light, glare and heat control in a room.

Silent Gliss is the leading global supplier of motorised and manual curtain and blind systems in the premium market. We offer our customers the very best in terms of quality, design, technology, service and individuality. Our core competence is innovation – inspired and driven by customer needs. A team of highly skilled and experienced professionals work on new developments as well as on the improvement of existing products. With committed customer support teams, Silent Gliss provides an extensive range of services including technical advice, fitting services and maintenance all around the world.
