Silent Gliss

METROPOLE CURTAIN POLES

SilentGliss

Metropole is actually a curtain track that does not use rings, the curtains hang directly on nylon gliders contained in a channel inside the pole.

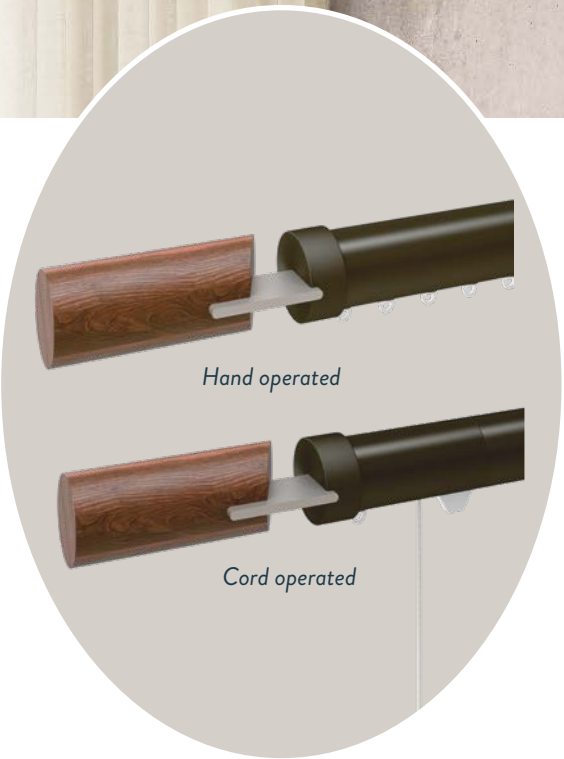
Unlike traditional curtain poles, the brackets attach to the top of the pole allowing the curtain to move smoothly throughout the complete length of the pole – no need for passing brackets, making it perfect for wide windows and large expanses of glass.

BENT AND CURVED APPLICATIONS

Metropole can easily be bent to fit perfectly to bay windows or other curved applications.

A decorative curtain pole... That functions like a track!

Pictured: Metroflat 36mm black with fused barrel finials.



Hand operated

Cord operated

HAND, CORD OR ELECTRIC OPERATION

Whether hand, cord or electrically operated, our 2C (two-component) glider ensures the same smooth and unhindered curtain movement.

All our poles, regardless of size, shape or operation, keep the same sleek design. The cording endset blends into the pole profile giving a seamless finish.

Electric operation

ALL CURTAIN HEADINGS

Metropole is suitable for all curtain headings that hang underneath the pole, from traditional pleats (inset) to contemporary Wave (above).

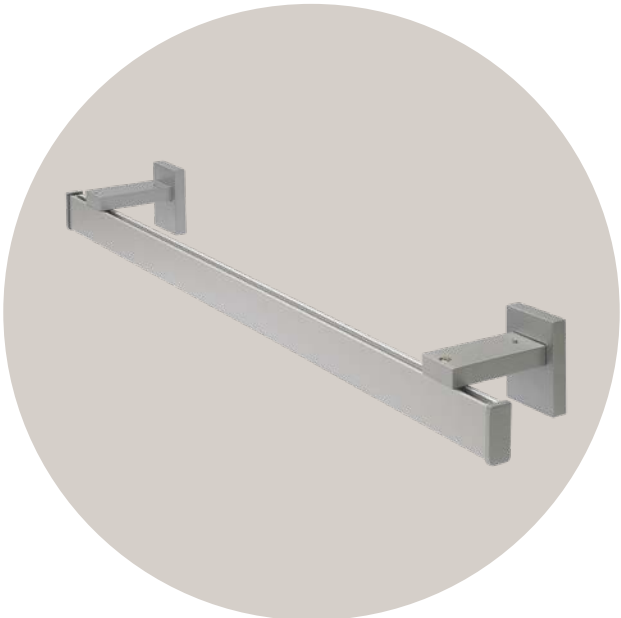
IN 15 COLOURS

From striking metallics to muted and neutral shades, Metropole offers something to suit any colour scheme.

Pictured: Metroflat 36mm pole with Shard Etched finials.

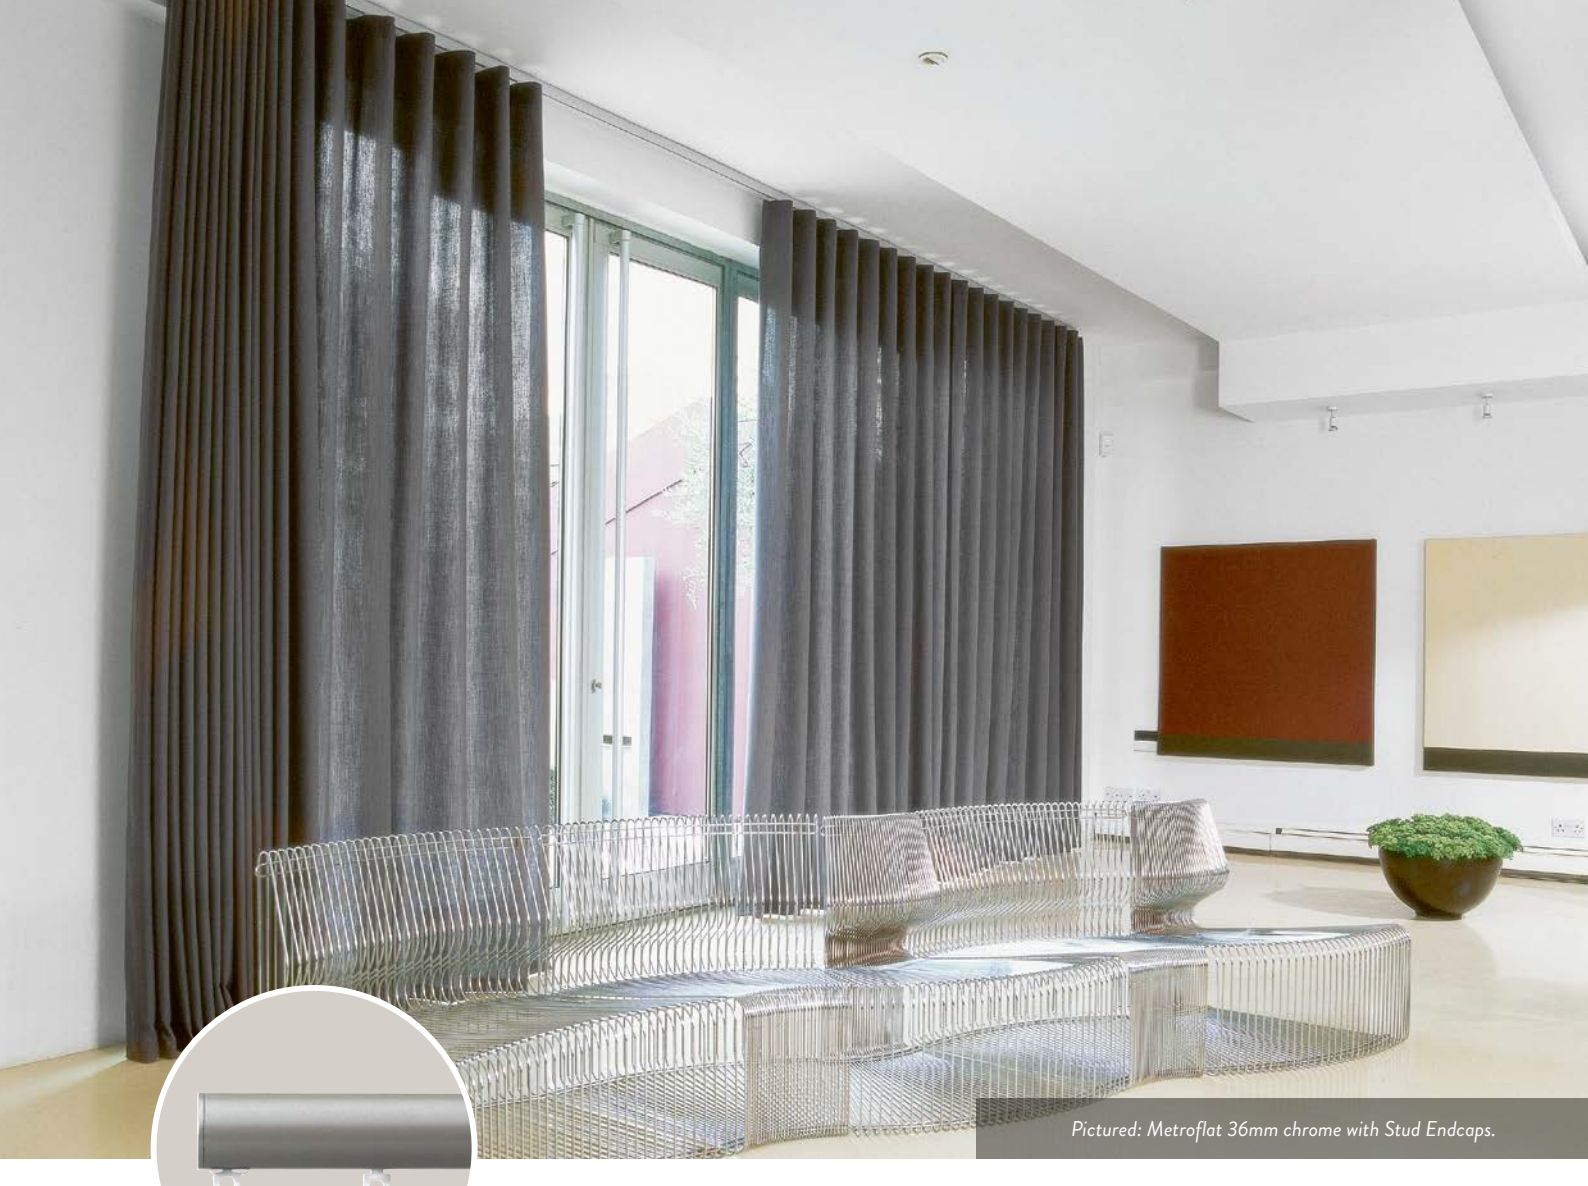
DISCREET OR STATEMENT

Whether a discreet pole for a small window or something more visible, Metropole is offered in 3 sizes of round pole - 23mm, 30mm and 50mm.



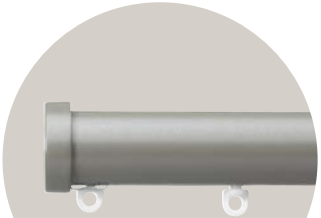
METROFLAT

For a more contemporary look, choose our 36mm Metroflat pole. With or without finials, available in 10 popular colours, it's a perfect alternative to round poles for modern interiors.

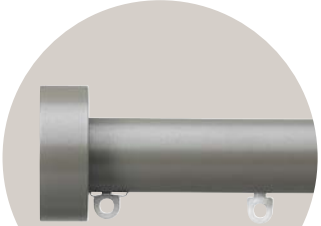


Pictured: Metroflat 36mm chrome with Stud Endcaps.

Flush Endcap



Stud Endcap



Design Endcap

SIMPLICITY

Metropole is supplied as standard with Flush Endcaps, (Stud Endcaps can be selected at no additional cost), unless decorative finials are chosen.

Endcaps are ideal when a minimalist look is preferred, where space is limited or when the pole is being fitted flush to a ceiling or window reveal (using a top fix plate - see the bracket table at the back of this brochure).

Flush Endcaps are discreet and slim, perfect for fitting inside a window recess or when butting up to a wall.

Stud Endcaps give a more defined end to the pole but still work well in restricted spaces.

The larger 50mm diameter Design Endcap is offered with our most popular 30mm pole. The most subtle finial design.

Pictured: Metropole 30mm silver with Ball End finials.

Pictured: Selected range of Metropole finials.

Finish with finials! Enhance your curtain pole by adding decorative finials. Choose from our wide range, traditional to contemporary, simple to colourful, metal, wood and glass!

Even if your pole is fixed to the ceiling our top fix bracket will accommodate all of our finial designs.

See the back of this brochure for the full range of Metropole finials.

Decorate your pole...

Pictured: Metropole 30mm ecru with Ball End finials.

Silent Gliss has created a unique curtain heading system that turns traditional curtains into a striking, modern design statement.

As an alternative to traditional pinch, pencil pleat or goblet style headings, Wave offers a more contemporary look throughout the curtain drop: when opened, the curtains stack back neatly, and when closed the fabric hangs in a smooth, continuous wave.

NEAT CURTAIN STACK-BACK

Undulating curves when your curtains are closed transform into a neat stack-back when opened.

Metropole with Wave – a perfect partnership.

Pictured: Metroflat 36mm chrome with Walnut Fused Barrel finials.

WAVE CURTAIN HEADING

Wave can be selected with 30mm, 50mm, and Metroflat poles.

SILENT GLISS FABRIC COLLECTION

Whilst many fabrics are suitable for Wave, only when using Silent Gliss approved Wave fabrics can you be assured of the perfect and even wave effect. By selecting one of our wider fabrics and limiting the number of joins, the highest quality curtain is achieved.

Silent Gliss fabrics Colorama 1 and 2 are proven to give an exceptional Wave effect throughout the full drop of the curtain. Both transparencies are available in over 40 colours. See the **Fabrics** section of this binder.

FITTED YOUR WAY

Metropole is supplied as standard with Smart Fix brackets. Alternatively you can choose from our range of different bracket designs, all are colour matched to the pole.

			⌀ 23mm	⌀ 30mm	⌀ 36mm	⌀ 50mm
			Hand-SG 1003	*Hand-SG 6130* *Cord-SG 6120*	*Hand-SG 6100*	*Hand-SG 6140* *Cord-SG 6160* *Electric-SG 6150*
Smart Fix bracket	Supplied as standard with all 23mm, 30mm and 36mm straight poles unless otherwise specified.		•	•	•	•
Smart Fix adjustable bracket	Supplied as standard with all 23mm, 30mm and 36mm bent poles.		•	•	•	•
Square Smart Fix bracket	A smaller down-stand makes this bracket ideal when fitting space is limited or for minimal visibility of the brackets.		•	•	•	•
Square Smart Fix adjustable bracket	An alternative adjustable bracket with a smaller down-stand for restricted fitting space and minimal bracket visibility.		•	•	•	•
Pillar bracket	Recommended for straight poles only.			•		
Maxi adjustable bracket	A wider bracket supplied as standard with all 50mm poles. Also suitable for 30mm and 36mm poles.			• *Not Chrome*	•	• *Not Chrome*
Ceiling supports	For fixing flush to a ceiling or window reveal. Offered in 3 sizes - 3mm, 6mm and 9mm to accommodate flush and stud endcaps for all poles.		•	•	•	•
Blok bracket	Co-ordinates perfectly with Metroflat 6100 but also suitable for all poles. Not recommended for bent poles.		•	•	•	•
Top Fix bracket	Allows finials to be specified on ceiling fitted poles.		•	•	•	•

MOTORISED

For a touch of luxury, or for particularly heavy or inaccessible curtains, why not consider a motorisation?

50mm Metropole can be combined with Silent Gliss electric curtain track systems SG 5100 and SG 5600 offering operation by switch, remote handset, timer or by our Move App.

INDIVIDUAL CURTAIN OPERATION

Corded Metropole is offered as standard with a single cord that operates both curtains simultaneously. Should you wish to operate your curtains independently, we offer an intermediate pulley allowing a cord at each end of the pole.

An intermediate pulley can also achieve longer poles (over 6m), and can carry heavier curtains.

BENT POLES

With the exception of the electrically operated Metropole, all the other sizes and shapes can be forward and reverse bent to accommodate bay windows or curved installations. The following minimum bending radii apply:

23mm hand operated system SG 1003 - 15cm
36mm hand operated system SG 6100 - 20cm
30mm cord operated system SG 6120/6130 - 30cm
50mm hand operated system SG 6140 - 50cm
50mm cord operated system SG 6160 - 68cm

THE PERFECT INSTALLATION

Silent Gliss Smart Fix brackets offer the ultimate flexibility and ease of installation.

This modern, versatile bracket is offered in three designs – Standard, Square and Adjustable, and includes magnetic metal covers which are easy to fit and elegantly hide the screws.

All Smart Fix bracket designs are suitable for use on all Metropole pole sizes and shapes.
